**REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: the present invention relates to read and write access of a single-port memory device. The independent claims 1 and 10 recite a method and an apparatus for performing access to a single-port memory device having a first path for processing a first access-signal (WEN) of high priority at a first clock rate, a second path for processing a second access-signal (REBL) of low priority at a second clock rate, wherein the first clock rate exceeds the second clock rate, a control-assembly for providing direct access to the memory device for the first access-signal (WEN) of high priority, a delay-assembly for properly delaying ( $t_0$ ,  $t_1$ ,  $t_2$ ,  $t_3$ ) the first access-signal (WEN) of high priority adapted to generate an access-timing according to the demands of the memory device. The PRIOR ART fails to disclose or suggest such a method and an apparatus for performing access to a single-port memory device using two clock rate for two kind of access operation with different priority. Therefore, claims 1-19 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vu A. Le whose telephone number is (571) 272-1871. The examiner can normally be reached on M-F (7:00-3:30).
